Availability: Immediate

SUMMARY

Results-driven IT Engineer and Full-Stack Developer with expertise in Flutter mobile development, web applications, ERP systems, and enterprise infrastructure. Experienced in building scalable applications, secure REST APIs, and high-availability systems using modern DevOps practices. Skilled in database management, system optimization, and delivering practical technical solutions that support business operations and enterprise environments.

EXPERIENCE

IT Engineer & ERP Systems Support Specialist – Building Materials Sector
(Sana'a, Yemen | 2022 – 2025).

- **Optimized and administered Al-Ameen ERP System**, reducing data discrepancies by 20% and accelerating financial reporting workflows for the building materials sector.
- Coordinated with accounting and sales departments to improve workflow efficiency and data accuracy.
- Overhauled enterprise IT infrastructure (POS, networks, servers), ensuring 99.9% system uptime and providing technical training to 15+ staff members.

Freelance Full-Stack & Mobile Developer | Remote / Contract (2021 – Present)

- Developed and deployed cross-platform mobile apps using Flutter (Clean Architecture & BLoC).
 - Built secure, production-grade RESTful APIs utilizing Django and Laravel, protecting endpoints with JWT/OAuth 2.0.
 - Designed fault-tolerant, high-availability database environments using Patroni, etcd, and HAProxy to ensure zero data loss.
 - Containerized microservices using Docker and managed orchestration via Kubernetes.
-

PROJECTS

- **Ain Al-Amn (Graduation Project)** | Deployed a secure Flutter/Django mobile app with real-time backend sync and fault-tolerant database replication.
- **Safarni – Logistics Automation** | Created an end-to-end transport scheduling and reservation platform with token-protected RESTful APIs.
- **LUXE PAGE – E-Commerce Platform** | Developed a high-end luxury fashion retail application featuring a minimalist UI and optimized performance.
- **Developed and deployed numerous other advanced projects in similar domains; live demos are available on my portfolio website.**

EDUCATION

Bachelor of Information Technology – Sana'a University | Class of 2025

(GPA: 86% with Honors).

Certifications & Training:

- **Mobile Application Development (Flutter)** – G.T.A | Yemen | 2024.
 - Advanced English Course - SEEDS Institute | 2021.
 - ICDL Course - SEEDS Institute | 2021.
 - Graphic Design Diploma - iGraphic Institute | 2023.
 - Online Certifications (Coursera, Cisco, Alison and similar platforms).
-

TECHNICAL SKILLS

- **Mobile Development:** Flutter (Dart), Clean Architecture, Modern State Management (BLoC/Provider), Responsive UI/UX Design.
 - **Back-End Development & APIs:** PHP, Python (Django), Laravel, PocketBase, RESTful APIs, JWT, OAuth 2.0.
 - **DevOps & Automation:** Docker, Kubernetes (Kubectl & Dashboard), Shell Scripting, Backup Automation (PBM - Percona Backup), PgAgent, Cron Jobs.
 - **High Availability & Virtualization:** DB Clustering, HA with Patroni + etcd + HAProxy, VMware, Network Configuration, Storage Architecture.
 - **Databases & Caching:** PostgreSQL, MongoDB (Atlas & Compass), SQL Server (SSMS), Redis, Supabase, MySQL, MinIO (Console).
 - **Enterprise Systems & Reporting:** Odoo ERP, Al-Ameen ERP System, Telerik Reporting (Designer & Server).
 - **Search & GIS Tools:** Enterprise Search (ElasticSearch, Kibana), ArcGIS Desktop, Draw.io, Cisco Packet Tracer.
 - **Design & System Analysis:** UI/UX Design, System Analysis (UML Diagrams), Adobe Photoshop, Adobe Illustrator, Adobe XD.
 - **Version Control & IDEs:** Git, GitHub, VS Code, PyCharm.
-

LANGUAGES

- **Arabic (Native)**
- **English (Advanced)**
